

2024 2025

ANNUAL REPORT

toba
Centre for
Children & Youth

When I found out what happened, I felt pain that was too much and didn't know where to turn or what to do. When I came to Toba Centre, I met my 'Earth Angels'. The police officer and case navigator have helped me feel hopeful and no longer alone in trying to deal with what happened.

—PARENT WHO RECEIVES SERVICES FROM TOBA CENTRE

A safe place for children and youth.

Toba Centre for Children & Youth (Toba Centre) is a charitable organization that coordinates a collaborative approach to child abuse investigation and response. We integrate a multidisciplinary community of professionals—law enforcement, medical, child welfare, mental health, Toba Centre staff and volunteers, and other professionals involved in the response to child abuse—in a child-centred environment to work together in order to restore the health and well-being of those affected by child abuse.

Over the past 12 years, Toba Centre (formerly Snowflake Place) has evolved and expanded from primarily providing forensic interviews in a child-friendly space to providing the wrap-around supports characteristic of the internationally recognized child advocacy centre model, using evidence-based and evidence-informed practices.

Here at Toba Centre, before I'm ever seeing a child or family, they've actually had a forensic interview by someone who is highly trained to be doing that. So, instead of me walking in and saying, 'What happened,' before I see them, I'm talking to one of the forensic interviewers saying, 'What did they disclose?' Then, when I walk in the room with the kid, I can say, 'Tell me a little bit about yourself. What do you like doing? How are you feeling right now? Are there any questions you want me to answer today?' I don't even have to ask them about the worst thing that's ever happened to them. And that's really trauma-informed care. And that's what we're able to provide here that we never have been able to provide at the hospital or other settings. And for me, that's the true magic of this place; being able to focus on the kid and not focus on what's happened to them, at least from my role as a physician"

—DR. MEGAN COONEY, PEDIATRICIAN, CHILD PROTECTION CENTRE

GREETING

On behalf of the Board of Directors, staff, and volunteers at Toba Centre, we are pleased to present our 2024/25 annual report. As we look back on the past year, we are filled with hope for children and youth impacted by abuse, pride for the team of dedicated professionals working together, and gratitude for the community that surrounds us, believing in our mission, getting involved, and supporting our important work.

The past year has been one of continued growth, meaningful collaboration, and unwavering commitment.

It was our first full year in our new facility with our multidisciplinary team (MDT) working together to investigate abuse, hold offenders accountable, and, most importantly, help children and families heal from abuse. Bringing diverse yet intertwined systems under one roof has not been without growing pains, but the impact it's having on children and families is incredible—seeing a child's demeanour change from when they arrive at Toba Centre to when they leave or hearing words of hope and gratitude from caregivers. It's all worthwhile when we see kids and

families doing ok and having somewhere to turn for support when they need it. We are incredibly grateful to our partners for their ongoing commitment to making Toba Centre the centre of excellence we set out to be.

Our innovative service delivery model places children, youth, and families at the centre to provide coordinated, wraparound support from our MDT—police, child protection, medical, mental health, and Toba Centre staff and volunteers. We are proud of this team of dedicated, hardworking, and specialized professionals, who remain committed to their individual mandates while also finding new ways for collaboration in order to prioritize the health and wellbeing of children and youth. This is critical work, it is difficult work, and this team is up to the challenge.

Our community continues to come together in big ways in support of this important work and of the children and families of Manitoba. Our fourth annual Golf FUNdraiser, presented by Bockstael Construction, raised an incredible \$230,000 to support critical programs and services. In recognition of Child Abuse Awareness Month, we rallied our community to join our team, bringing awareness to the issue of child abuse and

INGS

from our Board Chair & Chief Executive Officer

to the role everyone can play in recognizing signs, responding to a child, and reporting abuse. Our annual fundraising event, rebranded this year to A Night in Blue and sponsored by Johnston Group, generated \$157,000 in support of the children and families we serve. Together, these initiatives bring in crucial funds that allow us to respond in real time to the needs of those we serve.

While we recognize all that we have accomplished as a team and as a community, we are reminded there is still much to be done. As awareness for Toba Centre among our partners and community in general increases, so too does the need for our services. Our dedication to providing the highest standard of care for children and caregivers remains paramount. We are committed to advocating for them and pivoting to meet complex and changing needs. They deserve nothing but our very best.

The pages that follow reflect not only the difficult realities we confront each day, but also the impact that's possible when we come together—the strength and resilience of children, the dedication of our staff and partners, and the continued generosity of our supporters.

Together, we are creating a more responsive system for those impacted by child abuse, so every child has the opportunity to feel heard, helped, and healed. Thank you for walking alongside us as we continue to meet challenges head-on, embrace opportunities, and create brighter futures for our children and youth.

Christy Dzikowicz
Chief Executive Officer

Leilani Kagan
Board Chair

MISSION

It is Toba Centre's mission to restore the health and well-being of those affected by child abuse through a coordinated, community response.

VISION

It is our vision that every victim of child abuse is heard, helped, and healed.

VALUES

Freedom from abuse and exploitation is a basic human right.

Every child has a right to feel safe and protected.

Child Abuse is both a community problem and a community responsibility.

Children and families can heal from abuse.

Investing in the health and safety of children and youth is a community obligation. I volunteer with Toba Centre because I want Manitoba children to thrive, and a child advocacy centre is a critical piece in the restorative journey of children and youth after surviving unimaginable hardship.”

—LEILANI KAGAN, TOBA CENTRE BOARD CHAIR

Hearing, helping, and healing.

834 new referrals **14.8%** increase in referrals over the prior year

At Toba Centre, the collaborative multidisciplinary response begins when new referrals are presented at our joint intake table. This daily meeting includes representatives from law enforcement, child protection, medical professionals, and Toba Centre staff. In 2024/25, 834 referrals involving 1,271 children/youth were presented at the joint intake table.

“[CACs] are founded on a shared belief that child abuse is a multifaceted community problem and no single agency, individual, or discipline has the necessary knowledge, skills, or resources to serve the needs of all children and their families. The CAC’s coordinated and comprehensive response is also

guided by a shared philosophy that the combined expertise of professionals across disciplines results in a more complete understanding of case issues and better provides help, support, and protection to children and families as they pursue healing and justice.”¹

The multidisciplinary team (MDT) is the foundation of the CAC model and the overall effectiveness of the model is dependent on strong, collaborative work by a highly specialized and resilient MDT.²

¹ National Children’s Alliance, Putting Standards into Practice: A Guide for Implementing the 2023 National Standards of Accreditation for Children’s Advocacy Centers, 2023

² McGuier, E.A., Rothenberger, S.D., Campbell, K.A., Keeshin, B., Weingart, L.R., & Kolko, D.J. (2022). Team functioning and performance in Child Advocacy Center multidisciplinary teams. Child Maltreatment, 107755952211189. <https://doi.org/10.1177/10775595221118933>

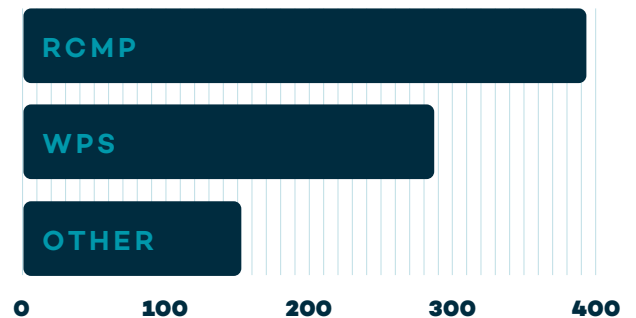

Together we work to ensure children can have their voices heard while working through the abuse investigation and the child's and family's ongoing plan to heal from the abuse they've experienced."

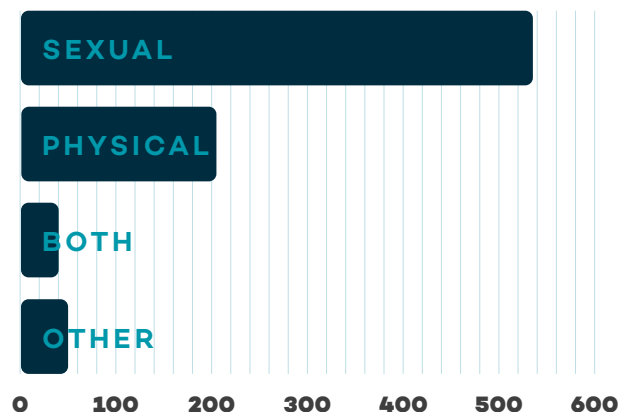

—**KELVIN SHERGOLD**, ABUSE COORDINATOR,
PEGUIS CHILD AND FAMILY SERVICES

At the time of each child's/youth's appointment, members of the multidisciplinary team meet to ensure all partners have the information they need to make informed decisions in their respective disciplines. During the 2024/25 fiscal year, 82.3% of multidisciplinary team meetings included representation from law enforcement, child welfare, and Toba Centre staff. The remaining meetings included representation from Toba Centre and either law enforcement or child welfare. Many meetings also included representation from medical (Child Protection Centre); however, this was not being tracked in 2024/25.

Referral Source

Type of Referred Maltreatment

Note: In 2024/25 we observed a notable decrease in referrals from the Winnipeg Police Service (WPS) compared to the previous year. This change is partially the result of the WPS revising their referral process in January 2024 from referring all matters/occurrences received by the WPS CIU to the joint intake table, to identifying which matters/occurrences they would refer.

At this time, there is no referral criteria set in place for Toba Centre. Children who come to Toba Centre may not be representative of all reported cases of child abuse in Manitoba.

Every child/youth who attends Toba Centre receives services from our multidisciplinary team. When they attend Toba Centre, children/youth may participate in a forensic interview and/or receive medical care. Children/youth and/or their care providers may also meet with law enforcement, child welfare, and/or a case navigator during their time at our centre.

Forensic Interviews

The purpose of a forensic interview is to “facilitate information gathering from children to determine whether abuse occurred and, if so, the nature of the allegations, with the intention that this information will contribute to accurate and fair decision-making by the [multidisciplinary team] members relative to the criminal justice, child protection and relevant service delivery systems.”³

These interviews are conducted in a manner that is developmentally and culturally sensitive, legally sound, and of a neutral, fact-finding nature.

Each referral to Toba Centre may involve one or more forensic interviews.

786

forensic interviews
(2024/25)

520

forensic interviews
per year (5-year average)

Coordination between the subject matter experts from child protection, law enforcement, medical, cultural, and psychological services allows us all to better serve children and youth who have experienced abuse.”

–S/SGT TARA CLELLAND, D DIV RCMP MAJOR CRIME SERVICES

³ National Standards of Accreditation for Children's Advocacy Centers, 2023 Edition, National Children's Alliance.

Medical Services

Providing medical services to children and youth involved in child abuse investigations is a standard component of the multidisciplinary team response. Toba Centre has two medical exam rooms where children and youth involved in child abuse investigations may receive medical exams. Throughout 2024/25, medical professionals from the Child Protection Centre provided on-site medical services in Toba Centre's two fully equipped medical exam rooms.

490

children/youth received medical care while at Toba Centre

51

acute exams

439

non-acute exams

“

We are so proud to have medical services fully embedded here at Toba Centre, giving every child the opportunity to receive care in a child-focused, trauma-informed setting from specialized medical professionals. It turns a clinical process into a compassionate step towards healing and justice.”

—**KAREN CHYMY**, TOBA CENTRE
DIRECTOR OF OPERATIONS

Case Navigation

Dedicated victim support and advocacy is provided through our Case Navigation Program. The objective of this program is to ensure the well-being and recovery of children who have experienced abuse or witnessed violence, and that of their caregivers, is prioritized by providing consistent and continuous support as they navigate both the systems involved in the response to child abuse and their individual journeys towards healing and justice. Our case navigators are integral to reducing trauma and promoting healing for children/youth and caregivers and are often involved with a child or family beyond the involvement of mandated agencies.

Supported
650
families/care providers at
child's/youth's appointment

Maintained contact with
1,200+
new & existing families/care
providers

Throughout our contact with Toba Centre, it has been helpful to feel the same care and support extended to the parent as the child. We are fraught with shame, grief, and a whole baffling array of warring emotions that take the back seat to our child. Being acknowledged and respected for our parental role and any of its shortcomings, to feel accepted for who I was and what I was going through; to feel validated, and for my emotions and trauma triggers to be validated; it was a missing balm that was so needed. This support was provided without judgement and allowed me to feel I had a safe space. Prior to accessing supports at Toba Centre, it felt like I was fighting for my child alone and without being seen.”

—PARENT WHO RECEIVES SERVICES FROM TOBA CENTRE

Mental Health

In 2024/25, we added a dedicated Clinician and Mental Health Coordinator role to support the development of our mental health services. Several resources and supports for children and families referred to Toba Centre have been developed, including planning for the implementation of a trauma screening tool for children and youth, development and pilot of a caregiver support group, provision of brief counselling support to caregivers, and coordination of professional development and collaborative opportunities for community service providers working with families impacted by abuse.

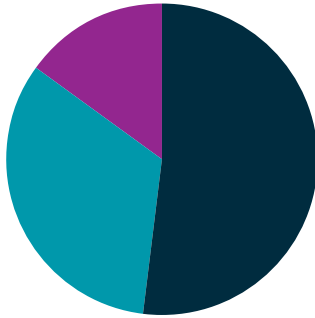

We would not have gotten through this without the care and support of Toba Centre. They have been very welcoming and have become an amazing support system. Knowing we have someone to turn to is a great relief for our family.”

– PARENT WHO RECEIVES SERVICES FROM TOBA CENTRE

Who We Serve

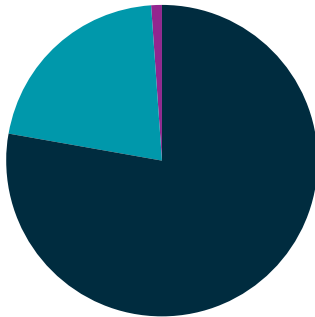

At Toba Centre, we provide services to children of all ages and backgrounds, from across Manitoba. Here's a snapshot of the children/youth who attended Toba Centre in 2024/25 and the type of abuse disclosed during forensic interviews.

AGE

Currently and historically, the majority of children who come to Toba Centre are between the ages of 6 and 12 years old.

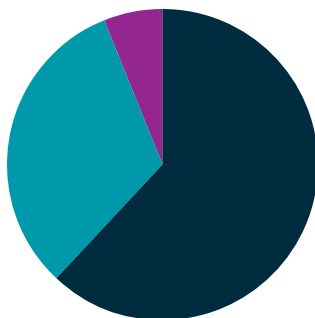

- 6-12 years old (52%)
- 13-17 years old (33%)
- 2-5 years old (15%)

GENDER

(Self/Parent Reported)

- Female (71%)
- Male (28%)
- Transgender (<1%)

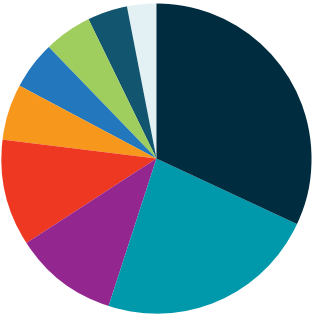

ETHNICITY

Child abuse occurs irrespective of ethnicity and at Toba Centre, we see children from a variety of ethnic backgrounds.

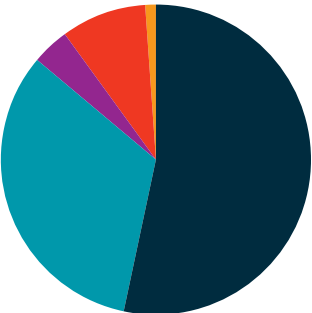

- Indigenous (62%)
- Caucasian (32%)
- Other (6%)

GEOGRAPHIC REGION

At Toba Centre, we serve children and youth from every corner of the province.

- Winnipeg (32%)
- Northern (23%)
- Westman (11%)
- Eastman (11%)
- Interlake (6%)
- Central (5%)
- Pembina Valley (5%)
- Parkland (4%)
- Non-MB (3%)

TYPE OF ABUSE

In 78% of the interviews conducted at Toba Centre in 2024/25, children disclosed information indicating they were abused or had witnessed violence. For the remaining interviews, the children either did not disclose any information or did not fully participate in the interview process.

- Sexual (54%)
- Physical (33%)
- Both (4%)
- Witness (9%)
- Other (<1%)

At this time, there is no referral criteria set in place for Toba Centre. Children who come to Toba Centre may not be representative of all reported cases of child abuse in Manitoba.

toba's helping hounds

In November 2024, our four-legged colleagues, DWW Booster and DWW Duke, welcomed DWW Jelly to the Helping Hounds team.

They were excited to show her the ropes, and together they stayed busy greeting children and families, attending meetings, and comforting more than 300 children and youth during their appointments.

In addition to their work at Toba Centre, Toba's Helping Hounds also attended community events, representing our centre and helping to raise awareness about child abuse and the work we do.

DWW Booster, DWW Duke, and DWW Jelly come from Dogs with Wings (DWW), an Alberta-based organization that has been changing lives since 1996. Dogs with Wings is accredited by Assistance Dogs International, ensuring the highest standards of training and service.

Diversity, Equity, and Access of Services

Guided by a Community Council with diverse knowledge and experience, Toba Centre aims to ensure our space and services are accessible and welcoming for all.

Throughout a child's and caregiver's involvement with Toba Centre, all multidisciplinary team members strive to provide trauma-informed, victim-centred, and culturally responsive support. Toba Centre staff seek to understand each child's and family's background, perceptions, and experiences, addressing any religious or cultural beliefs that may impact disclosure, needed services, and access to support. Planning/preparation, knowledge, and continued education assist the team in effectively understanding and responding to each child's and family's needs.

Our physical space offers an inclusive, equitable, and welcoming service delivery

environment. Every element, from the accessibility ramp and lift at the entrance, to the wayfinding marking on the carpet, to the water and fire features, and our Sacred Space fully ventilated for smudging, was carefully designed and embedded in our model.

Diversity, equity, and inclusion have always been priorities at Toba Centre. As part of our ongoing commitment to these priorities, in 2024/25, we began developing our Diversity, Equity, and Inclusion Strategy and Reconciliation Action Plan to guide our efforts over time. Throughout the year, we worked closely with Elder Billie Schibler who provided guidance and mentorship to Toba Centre leadership on cultural programming, gatherings, and ceremonies, with a particular focus on Indigenous culture.

CHAMPIONING

Public Awareness

Winnipeg Jets Captain and Toba Centre Ambassador, Adam Lowry, continued championing for children and youth as part of our #TobaCircleOfCare.

In late spring 2024, we built on the momentum of the previous fall's campaign and further increased awareness of our new child-centred environment, our coordinated multidisciplinary response to child abuse, and the importance of community in helping hurt children and families heal. Adam Lowry lent his profile with a powerful message encouraging Manitobans to rally around children and families impacted by child abuse, and 103.1 Virgin Radio's Ace Burpee Show used their voice to do the same.

The campaign included a 30-second television commercial and billboards/other out of home ads throughout the province, both featuring Adam Lowry. Social media and radio ads rounded out the campaign, along with a collaboration between the Ace Burpee Show and Jenna Rae Cakes for 'Toba Day' cupcakes that raised awareness and funds for Toba Centre.

Having a place like Toba Centre that puts kids and families first to help them through trauma is so important. It's something everyone needs to know about; whatever I can do to help, I'm in."

—ADAM LOWRY, WINNIPEG JETS CAPTAIN

Our fourth annual Golf FUNdraiser, sponsored by Bockstael Construction, took place on July 11, 2024 at the beautiful Breezy Bend Country Club.

A beloved tradition, this event brings together some of our biggest supporters for a day of golf and camaraderie, all for a great cause.

The generosity of our community continues to amaze us. With their dedication and enthusiasm for our cause, together, we raised an incredible \$230,000! This year's tournament was a sell-out, once again, reflecting our community's steadfast commitment to Toba Centre's mission and to children and youth in our province.

The funds raised from this annual fundraiser go towards supporting our programs and services, and play a vital role in ensuring that we can continue to provide essential assistance to children and families in need.

Year after year, participants, sponsors, and volunteers step up and make this event an overwhelming success. Our heartfelt thanks to each and every one of you for your generosity and dedication – you are helping to create positive change for the children and families we serve.

Being involved in this fundraiser is a privilege. To play a part in supporting children and families that need Toba Centre's help, to be able to help them along their healing journey, it's a great feeling and it's an extremely worthwhile cause."

Child abuse can occur in any community and affect anyone. For Child Abuse Awareness Month 2024, in addition to bringing awareness to the issue and rallying support for those impacted by abuse, we called on Manitobans to learn the signs of abuse, to know what to do if a child discloses or abuse is suspected, and to know how to report it.

Our partnership with True North Sports + Entertainment and the Winnipeg Jets once again helped to amplify our message with booths on the concourse at each Jets home game in October. Two #GoBlueToba jerseys were raffled off, drawing a lot of attention for the booths. Throughout the month, True North Sports + Entertainment also featured child abuse professionals as part of their Community Heroes, including Sgt. Janna Amirault (RCMP), Forensic Interviewers Mike Chiborak and

⁵Buildings around Winnipeg lit up blue October 24, 2024 in honour of those impacted by child abuse.

“

Year after year, the support we receive and that the kids we serve receive throughout October is remarkable. In speaking out and opening up this important conversation—whether to your best friend or far and wide—you’re helping to change the future for children and youth; you’re helping to take the power away from an issue that thrives in secrecy. For a child to hear that their community cares about them and believes in them, that can be life changing.”

—CHRISTY DZIKOWICZ,
TOBA CENTRE CEO

Theresa Pickering (Toba Centre), and CEO Christy Dzikowicz (Toba Centre).

For the Winnipeg Jets Child Advocacy Night, members of Toba Centre’s multidisciplinary team accompanied DWW Duke to centre ice for the ceremonial puck drop and cheque presentation. True North Sports + Entertainment also facilitated frontline child protection professionals to be in attendance at the game.

On October 15, 2024, we held our third annual #GoBlueToba fundraising event, rebranded this year to *A Night in Blue*, sponsored by Johnston Group, and hosted by Adam Lowry. We heard impactful stories from

our multidisciplinary team and celebrated the resiliency of the children who visit Toba Centre everyday, the professionals who work together to better help them, and the community that all believes in one thing—creating a brighter future for children who have experienced abuse. Together, we raised over \$157,000!

Rounding out the month, on October 24th, Canada Life Centre, the Legislative Building, Princess Auto Stadium, Esplanade Riel, and the City of Winnipeg *Winnipeg* sign at the Forks all lit up BLUE to raise awareness and honour those in our province who have been impacted by child abuse.

A COMMUNITY RESPONSE TO

CHILD ABUSE

Over the past year, Toba Centre experienced an outpouring of support through various community events and had several opportunities to work with others to keep the conversation going. We are grateful to participate and ally with each of them.

We sincerely apologize if we missed acknowledging any of the amazing support received through the year.

As a community-driven organization, we rely on in-kind support to deliver the standard of service children and families in Manitoba deserve. Throughout the year, our community provided items like books, blankets & stuffies, birthday cakes, event tickets/passes, camp opportunities, and nourishment for the children and families we work with, as well as dog food and treats for our furry friends.

“

Toba Centre was wonderful with not only the children, but with us as adults as well. Our grandchildren went through a horrible ordeal and the staff at Toba Centre made us feel very comfortable. The interviewers talked to the children in a nice calm manner and helped them relax during their visit. They helped us access resources and supports and offered us things that helped the children with their healing. Our case navigator has kept in touch with me still to this day, she is great to talk to and continues to provide opportunities for the kids to just be kids. The staff at the centre are fabulous!”

LAND ACKNOWLEDGMENT

We acknowledge we are on First Nations land, Turtle Island, inhabited by First Nations from time immemorial.

For thousands of years, First Nations people—the Anishinaabe, Cree, Dakota, Dene, and Anishininew Nations—walked and lived on this land and knew it to be the centre of their lives and spirituality.

The Anishinaabe call this land Manitou Ahbee, the place where the Creator resides.

We acknowledge this is the National Homeland of the Red River Métis.

We acknowledge and welcome the many people from countries all over the world who have come to join us, Turtle Island's First Nations, in calling this land our home.

We acknowledge we are now all bound together by Treaty 1.
